**So often I hear from people who say, "I could write a book." The problem is they never do, for whatever reason. Ann Marie Sabath teaches folks, how to begin the journey to become a published writer. She points out that we all have the potential to be an author but, need to be taught certain skills to move toward that endeavor. Her writing is clear and easy to follow while, other established authors reinforce all of her points. "Everybody Has A Book Inside Of Them," is a valuable resource for anyone who wants to cross over from being a reader to a published author.**
